

ZHANG Yichi

Email: yzhangwb@connect.ust.hk | Phone number: 63998325 | Hong Kong

Education

Hong Kong University of Science and Technology (HKUST) 2025-2029(expected)

BEng in Computer Engineering (STEM-related) Year2

- Relevant Coursework: ELEC 1100 (Electronic Circuits), COMP 2011 (C++ Programming), COMP 1023 (Python Programming), MAFS 6010 (Crypto Finance).

UC Berkeley (Summer Sessions) Berkeley, CA, USA

Visiting Student Summer 2026

- Relevant Coursework: CS 61BL (Data Structures & Programming Methodology), CS 188 (Introduction to Artificial Intelligence).

Technical & language skills

- Programming Languages: Python, C++, Java, C
- Hardware & Tools: Arduino, Google Notebook, Git, VS Code
- AI & Mathematics: Data Structures, Search Algorithms, Discrete Mathematics, Q-Learning
- Languages: English (Fluent), Mandarin (Native), Cantonese (Basic)

Project experience

Hardware & Circuit Prototyping (ELEC 1100 Project) Spring 2026

- Designed and breadboard-tested analog/digital sensor circuits for physical data acquisition.
- Programmed microcontroller logic to process continuous sensor signals and execute motor control.

WordNet & NGrams Semantic Analysis Tool (Independent Java Project) Summer 2026

- Developed a semantic analysis tool for parsing, storing, and processing large-scale NGram datasets and WordNet lexical databases. Optimized data querying and traversal by designing memory-efficient Hash Maps, Balanced Search Trees, and Directed Acyclic Graphs (DAGs).
- Applied topological sorting and graph traversal algorithms to compute semantic relationships and distances between query words.

Extracurricular Activities

HKUST Google Developer Group (GDG) | Active Member Sep 2025 – Present

- Participated in technical workshops and hands-on developer sessions focused on Google technologies, software engineering practices, and practical coding projects.

HKUST Crypto Club | Active Member

Sep 2025 – Present

- Engaged in technical discussions and seminars on Web3 technologies, blockchain architecture, and decentralized financial systems.
